Results

Copies of the Live and Dead lists for meals and activities were shared.

There was an initial discussion of how to proceed. After a few minutes, it was decided to just work from the lists and try to fill in the schedule starting with lunch on the 27th. During the meeting, Keith called and Jacques Simms said they'd like Saturday the 28th to be our work day.

The schedule and meals were completed in fairly good order over the course of the next several hours. A review of the schedule post discussion identified the following items as in need of additional thought/effort before Winter Camp.
